

Quick Guides for Managers

Thinking Into The Corners™

Thinking outside the box doesn't work. We all need an anchor for our ideas (the Box).

At the same time, we have internal limits (the Circle) preventing us from stretching outside our comfort zone to develop ideas and discover solutions that should be obvious.

Combining the Box and the Circle shows the corners where ideas are hidden or we haven't reached yet.

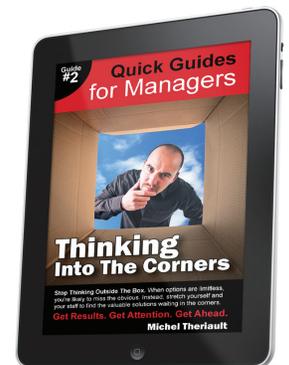

There's no need to try thinking outside of the box when the solutions are within reach. Learn how to Think into the Corners to get results.

Quick Points

- ▶ Learn how to define the limits of your Box.
- ▶ Understand how to expand those limits.
- ▶ Discover the internal limits and filters
- ▶ Find out how to mitigate the limits and filters.
- ▶ Reach into the Corners to find new ideas and solutions.

When you
Think Outside
The Box your canvas
is too large to anchor
great ideas.

Your thinking gets spread
thinly in an infinite space
instead of focusing on
the practical
solutions.
